

## JOB OPPORTUNITY FOR VETERINARY TECHNICIANS:

Are you are interested in a fulfilling career in the veterinary field where you can learn about orthopedic and soft tissue surgery, neurology and neurosurgery, as well as the newest procedures in veterinary medicine and patient care? Are you looking for a position where you will interact with clientele and patients all while developing your personal strengths in a challenging, supportive work environment?

We are seeking full-time Client/Patient Service Coordinators (CPC's), to work as the doctor's right-hand, relaying information to our clients and staff while organizing the daily activities of the veterinarian. CPCs are also client advocates, making sure client needs and concerns are addressed on all levels. We are looking for energetic, enthusiastic, and above all, compassionate technicians with great people skills for our fast paced small animal referral hospital.

Primary responsibilities include (but are not limited to) assisting with appointments, client communications, computer entry, and routine technical skills: venipuncture, IV and urinary catheter placement, brief anesthetic monitoring, incision care, drain and bandage management, etc.

Requirements: RVT with experience or individuals with higher education and veterinary or medical experience. New graduates welcome. Great benefits!

If you are interested in being considered for this position, please paste your resume into the e-mail and send to [renem@gcvs.com](mailto:renem@gcvs.com) or fax to Rene Musgrove, RVT at 713-693-1110.
