

**Part Time ICU Patient Care Technician:**

Gulf Coast Veterinary Specialists has the most technologically advanced diagnostic and therapeutic equipment along with a group of dedicated veterinary specialists in acupuncture, critical care, dermatology, imaging, internal medicine, and oncology. The internal medicine and critical care departments currently have an exciting opportunity for an experienced veterinary technician to fill a part time position in our fast-paced, cutting edge intensive care unit. GCVS is a 24 hour patient care facility and has a position available on our 7am-5pm shift on Friday and Saturday. We are looking for veterinary technicians with previous experience in patient monitoring, administering medications, and emergency care. The candidate must have a passion for veterinary medicine, a strong initiative to learn, and strive to perform at their highest level possible. If you are in school or just looking to gain more specialty experience this is an excellent opportunity for you.

**Requirements:**

Applicant must be able to work in a team environment, handle high stress situations and multi task effectively. Previous technical experience is required. Must be able to calculate drug dosages, administer medications (IV, IM, SQ, PO), and obtain basic vitals (heart rate, respiration rate, temperature). More experienced techs are welcome and emergency clinic experience is preferred.

We offer excellent benefits and competitive salaries (dependant on experience).

Benefits include:

- Uniforms

- Discounted Pet Services and Supplies

- 401K Profit Sharing Program

- Rewards Program

If you are looking for a unique opportunity to work in at the highest level of patient care and be a part of our highly skilled team, please fax your resume to Lauren Diamond at 713-579-2538 or email it to [laurend@gcvs.com](mailto:laurend@gcvs.com).
