

Randy Longshore, DVM, DACVIM

Dr. Randy Longshore received his doctor of veterinary medicine from the University of Tennessee in 1992. He completed an internship in small animal medicine and surgery and a residency in neurology at the University of Missouri. He became board certified by the American College of Veterinary Internal Medicine â€™ Specialty of Neurology in 1997. He practiced both veterinary medical neurology and neurosurgery exclusively with two other board-certified neurologists in Phoenix, Arizona, for eight years. Dr. Longshore joined Gulf Coast Veterinary Specialists in 2004.
