

Cherie Murphy, Procedural Services Manager

Cherie Murphy graduated from Tomball College with an Associate of Applied Science in Veterinary Technology in May of 2000 and began her career working for Gulf Coast Veterinary Specialists Surgery Department. Cherie has worked on the clinical floor, assisted with clinical study trials, and worked in the operating rooms assisting on various specialty surgeries. Cherie is the new Procedural Services Manager overseeing the Neurology, Surgery, Anesthesia, Dentistry, and Ophthalmology Departments. Cherie actively works on the externship program for new technician students at GCVS. She received her VTS in 2017 and has served on the examination committee, recertification committee, and the Board of Directors for the past four years. Cherie is actively serving on the technician program committee for ACVS and is the current President for AVST. Cherie enjoys supporting technician growth and elevating specialty career paths. Her passions are to continually advance her knowledge of procedures and support technicians in pursuing individual goals in veterinary technology, bringing excellence to the LVT profession.
